Our Product

Hard case

We accompany all our frames with a semi-rigid case so that they are always well protected when you are not using them.

Ecological awareness

Eco-friendly materials that respect the environment.

Light and durable

Extremely light and flexible frames to offer a lightweight and comfortable experience throughout the day.

Frame made of Arkema G850 BioBased and aluminum.

High-quality materials ensure an unbeatable and long-lasting experience.

Our Product

Clear HD Vision Lenses

We opt for polarized or photochromic lenses with Clear HD Vision technology to maximize the field of vision.

Antifog

We equip all our PERFORMANCE glasses with perfect ventilation to prevent fogging with temperature changes during sports practice.

Hard case

We accompany all our frames with a semi-rigid case so they are always well protected when you are not using them.

Nylon frames

We rely on the purest nylon as the material for our frames due to its lightness, flexibility, and durability.
